Solution 01

Visitor Management System

Seamlessly manage visitor entry, approvals, and movement with a fully digital and secure system. Eliminate paper logs and enhance premise security.

**Digital Check-in**
QR-based contactless check-in for visitors and guests.

**Audit-ready Logs**
Real-time reporting for security compliance and audits.

**Host Notifications**
Instant alerts via SMS, Slack, or Email upon visitor arrival.

**Movement Tracking**
Monitor entries and exits across multiple facility points.

SERVICE JOURNEY WORKFLOW

Solution 02

Canteen Management System

Enable controlled, cashless, and efficient meal distribution with real-time tracking. Reduce waste and streamline operations across cafeteria points.

**Face/Card Authentication**
Biometric or RFID-based access for quick meal verification.

**Entitlement Control**
Automated check for meal eligibility based on roster.

**Cashless Operations**
Integrated wallet or payroll deduction for seamless billing.

**Usage Reporting**
Detailed analytics on peak hours and consumption trends.

Powered by a Unified Platform

While modular by design, SmartAccess integrates all facets of workplace operations into a single command center for complete visibility.

**Centralized Dashboard**
One single screen to monitor all visitors, canteen usage, and security events.

**Access Integration**
Connect with existing HID, facial recognition, or biometric hardware.

**Real-time Visibility**
Live stream of logs and incidents across all building locations.

**Multi-location Scale**
Deploy across global offices with localized compliance and reporting.

Bridge the gap between silos
Connect your HRMS, Active Directory, and physical security systems into one source of truth.

Enterprise Analytics at Your Fingertips

Get deep insights into facility utilization, peak hours, and security compliance with our built-in analytics suite.

Why Industry Leaders Choose SmartAccess

Built for enterprise demands, our platform delivers measurable improvements in efficiency, security, and employee experience.

**Eliminate Manual Logs**
Say goodbye to paper registers. 100% digital check-ins reduce errors and improve data integrity.

**Faster Operations**
Drastically reduce queue times with contactless scanning and instant host notifications.

**Improved Compliance**
Automated audit logs and real-time blacklisting ensure your facility meets all security standards.

**Real-time Insights**
Live tracking of all movement across your workspace enables data-driven decision making.

Digitize workplace operations with a scalable platform

Join hundreds of forward-thinking companies streamlining their access and canteen management today.
