A Unified Facility Journey

How InOps transforms a typical site visit into a digital-first experience.

Field Ops App

Empower security staff with mobile tools for patrols, incident reporting, and gate control.

Built-in SOS alerts, real-time duty tracking, and instant communication with central command.

Smart Notifications

Stay ahead with proactive alerts for unauthorized access or unusual gathering patterns.

Configurable alert levels for facility managers via mobile push, email, and desktop dashboard.

Dwell Time Analytics

Optimize your lobbies and canteen queues with heatmaps and bottlenecks identification.

Visual data representations of peak usage hours to help staffing and resource allocation decisions.

Ready to Modernize Your Site Operations?

Join leading manufacturing and infrastructure giants who have eliminated leakage and improved site security by up to 40% with InOps Facility Management.
