Comprehensive Control

Our CLMS covers every touchpoint of your contract labor operations.

Digital Onboarding

Seamless verification and documentation for every worker. Reduce entry-point risks with automated background checks.

Attendance & Shift Tracking

Eliminate manual errors with biometric and face-recognition systems integrated directly with payroll engines.

Wage & Compliance

Stay 100% audit-ready with automated calculations for minimum wage, ESI, PF, and local labor laws.

Invoice Reconciliation

Compare contractor billing against actual attendance data to ensure you only pay for hours worked.

Contractor Management

Centralize performance metrics, license renewals, and quota tracking for all your labor providers.

Need Custom Integration?

We sync with SAP, Oracle, and legacy ERP systems.

Proven Business Impact

InOps CLMS isn't just about management; it's about measurable financial and operational excellence.

- 90% reduction in manual reconciliation
- 3-5% immediate fraud elimination
- 100% automated audit logging
- Real-time visibility across all vendors

Eliminate Ghost Workers

Aadhaar-linked biometric verification ensures every worker on site is legitimate and verified.

Reduce Cost Leakages

Automated invoice cross-verification typically recovers 10-15% in previously undetected billing errors.

₹2-3 Cr

Annual savings per 1000 contractors

30-60 Days

Typical deployment timeframe
