The Four Pillars of InOps

Explore how our integrated modules work together to solve complex enterprise workforce challenges.

Core Platform

Workforce Governance

Eliminate cost leakages and ensure 100% audit readiness with automated compliance and labor management.

Contract Employee Governance (CLMS)

Manage lifecycle, onboarding, and compliance.

HR Information System (HRIS)

Centralized records and role-based access.

Security & Tracking

Identity & Access

Unified identity management using state-of-the-art biometric and vision systems across all enterprise sites.

Face Recognition

High-accuracy touchless attendance.

CCTV Attendance

Automated workforce tracking via vision AI.

Mobile App

Self-service and field force management.

Facility Management

Operations

Streamline secondary facility operations and visitor tracking to improve onsite efficiency and safety.

Canteen & Visitor Management

Digital meal coupons and visitor approvals.

Enterprise Operations

Consolidated visibility across all facilities.

Workforce Wellness

Financial

Empower your workforce with financial tools that reduce attrition and improve operational transparency.

Earned Wage Access (EWA)

Real-time wage visibility and NBFC disbursement.

IMPACT NOTE

"Integrating EWA has shown to reduce contract worker turnover by up to 25% across manufacturing sites."

One Unified Ecosystem

Most enterprises struggle with fragmented data across HR, Finance, and Security. InOps bridges these silos by creating a single source of truth for every contract worker.

- ✔ Eliminate ghost workers with biometric validation
- ✔ Automate invoice reconciliation with contractor data
- ✔ Ensure 100% compliance with local labor laws
- ✔ Real-time visibility across multiple geographic sites
